FFAR OF NFGRO RIOTING KEEPS

Air Surcharged With Spirit of Terrified Waiting Following Flare of Race Hatred.

Out of race hatred and death, there came last night a spirit of terrified waiting, which surcharged the atmosphere like a living thing. Black men and white eyed each other askance when they passed. Even in the brightest lighted sections there was a subconscious edging away from each other. Every man seemed afraid the pedestrian nearest him

might "start something." With the women this spirit of terror was even more pronounced. In the early twilight workers on their way home hurried along, almost running. Ordinarily, when a woman is afraid, she seeks to be close to some man. But yesterday evening it was Pledge Aid to Authorities in different. Yesterday evening they shunned all men. They feared that at any moment men might become living targets.

Doors Kept Locked.

After dark there were no women on streets. The usually gay crowds of and F streets were all home, within doors, and with those doors locked. And save for men with long guns

few seekers of excitement who wanted to see it "if there was anything doing," the entire downtown section

part, in the outlying districts. Occasionally, in upper Georgetown, upper Ninth street, or in the vicinity of Fourteenth and U streets northwest, amall crowds congregated and talked in low tones. But not for long. One or two minutes-and a soldier, or a policeman, or mayhap a marine or gob, would hurry up, heavily armed and with swinging club, and the growd would scatter under stern orders to "Go home, and stay there." Terror was everywhere, but in no place was it more apparent than on the street cars. The cars hurtled venting further bloodshed. along at top speed. When they stopped to take on a passenger the doors were opened and shut so quickly that Superintendent of Police deplored the the man or woman had to hurry to mob violence which has occurred in get inside. pot of an army cantonment.

Then there were non-commissioned officers and private soldiers, sailors and marines galore, all heavily armed, bringing in prisoners, bringing in reports and receiving instructions. Also there were secret service men.

Meanwhile from a far corner room a man carted out case after case of big, deadly looking army "fortyfives," and yet more cases of blunt nosed cartridges, which were passed out and strapped around the waists of home defense league men and specially deputized citizens.

And every so often a patrol would ner would be hurried out into the easy. main room, searched over every inch "If necessary we can use vigorous of his person, and then sent off methods here. to some precinct. Martial Law Not Needed, Says Sec. Baker

After a three-minute conference with District Commissioner Louis Brownlow, Secretary of War Baker said last night that he was confident the police and military authorities in the Capital could handle the situation.

Asked whether President Wilson intended declaring martial law in the Capital, Secretary Baker said: "No, no, no, there will be no martial law. The local authorities seem well able to cope with the

The police authorities are still in charge of the situation, the military working in co-operation with

Putting Down Race Disorders.

From their pulpits and in the Pennsylvania avenue, Seventh, Ninth homes of their congregations. Washington ministers will fight the sinister spirit of race antagonism. Resolutions pledging their support to the strapped to their right legs, and a District Commissioners and the Superintendent of Police and expressing their determination to take every step possible to prevent the loss of further life, "regardless of class or It was the same, too, for the most color," were adopted at a meeting held in the New York Avenue Presbyterian Church this morning by the Washington Pastors' Federation. Representatives of colored churches of the city attended.

Speaking in executive session be fore the assembled pastors, Commis sioner Brownlow outlined the causes leading to race riots in general and to Washington's scenes of disorder in the last few days. He asked the ministers to co-operate in every way possible to aid the District officials in pre-

Eastern Press Decries Race Hatred Here; Says Shoots His Companion Riots Must Be Stopped

Editorial comment appearing in ; out-of-town newspapers decries the race rioting in Washington. The Baltimore American says:

"It is no light matter to have a part of the National Capital in the grip of race riots, a condition extending over several days and of a worse character than anything of the kind that has occurred in Washington since the civil

war period. "It is too bad that an occurrence of this kind should go out to the world and be subject to misunderstanding abroad and in same places be featured as a pogrom of the whites against the colored people."

Baltimore Sun:

"The only remedy for the situation in Washington is immediate use of the military rigidly to suppress all disorder, no matter from what race it proceeds. Inefficiency in the police department seems strongly indicated. That subject should be investigated

Philadelphia Public Ledger:

"It is unnecessary to seek for the causes for this particular outbreak, for it is symptomatic of a deeper and more intricate problem. Nothing can be said in taliation of excuse for the crimes committed by colored men against white women, which have been in so many instances the immediate pretext or inspiration of mob violence, but neither can mob violence be defended under a civilized regime.'

"It is peculiarly unfortunate that the National Capital and the precise moment when the lawmakers of the nation are deliberating upon the problems of world peace and world readjustment should have been chosen as the time and place for a bloody conflict between whites and

New York Times: "It is not the old, law-abiding legal population of Washington, the friends of the white map. that have been committing these crimes against women, these daylight hold-ups, and all the other outrages that have incited white men to a general war against negroes. It must be the new negro population brought in by the

"That white men, exasperated

by failure of the police to cope with the situation, should have undertaken to end it by general terrorization of negroes is to be condemned and deplored. That the negroes, most of them undoubtedly innocent, should have retaliated upon the whites is not less deplorable.

"The fault is not with the police of Washington, brave as the bravest, honest men who do their duty. It lies in the fact that all their training has been that of constables doing duty in a peaceful town. For that reason they failed just as lamentably to protect the woman suffrage paraders from rioters a few years ago; and so then always will fail to cope with a dangerous situation unless their training is based upon met-

ropolitan models,"

New York World: "Is there anybody who imagines that the compulsory service of 360,000 negroes in the United States army, in many instances so creditably as to win high commendation, has had no influence upon them or the mass of their people at home? Who is foolish enough to assume that with 239,000 colored men in uniform from the Southern States alone, as against 370,000 white men, the blacks, whose manhood and patriotism were thus recognized and tested, are forever to be flogged, lynched, burned at the stake or chased into concealment whenever Caucasian desperadoes are moved to engaged

in these infamous past times? "The Washington outbreak is a warning to all Americans that their race wars hereafter are going to be race wars. The negro citizen is going to have his day in court.'

New York Tribunes

"The usual excuse is given that black men are attacking white women, but so far few particulas of this are given, and the reports

are to be accepted with reserve as at least exaggerated. But even though there are negro criminals, as there are, there is no reason for a general attack upon the innocent. The outpreaks are to be attributed to blind race prejudice-to the feeling entertained by many in Washington that the negroes need to be taught their place, that in Washington they are not sufficiently abject in their manner."

WHO SAID THE WAR DEPARTMENT WAS **NEARLY BROKE?**

The War Department is far from "broke.". At the close of the fiscal year on June 30, last, there was \$3,653,806,000, or about 33 per cent of the total War Department appropriations for the fiscal year 1918-1919, still unused, it was announced today.

The balance was in the Treasury, or in the hands of the disbursing officer as a working fund. Of the appropriations for military aeronautics, about 75 per cent remained unused; while of the quartermaster appropriations, other than for pay, 89 per cent was used.
